1.	From the Chapli section of Dnepropetrovsk, heard sounds during
-	the night, which were probably made by rocket engines. They normally occurred between 2:00 and 4:00 a.m., in any event, always at night
	and never in the daytime. the start of the sounds
	always cut off sharply. Occasionally. similar sounds between 9:00 and 9:30 p.m. they lasted about 50X1-HUN
	half a minute, They appeared to originate somewhere
	half a minute, They appeared to originate somewhere west of the Chapli villa They did not come from the airfield
	half a minute, They appeared to originate somewhere
	west of the Chapli villa They did not come from the airfield south of Dnepropetrovsk.
	west of the Chapli villa They did not come from the airfield south of Dnepropetrovsk. They appeared to originate spmewhere They did not come from the airfield They did not c
	most like that heard at Dnepropetrovsk was a low, rumbling one the absence of high-frequency notes. They appeared to originate spmewhere from the airfield. They did not come from the airfield. The sound seemed the absence of high-frequency notes.
2.	They appeared to originate spmewhere west of the Chapli villa south of Dnepropetrovsk. They did not come from the airfield The sound seemed most like that heard at Dnepropetrovsk was a low, rumbling one the absence of high-frequency notes. The tire plant was almost entirely surrounded by a wall 10-12 feet high.
